

WORKSHOP CLOSURE

Learning Outcomes

12-2

You should now be able to:

- Describe the influence of planning factors: land use, street connectivity, access management, site design, and level of service.
- Describe how pedestrians should be considered and provided for during the planning, design, work zone, maintenance, and operations phases.
- Describe how human behavior affects the interaction between pedestrians and drivers
- Identify good practices and effective solutions to enhance pedestrian safety and accessibility.

Designing for Pedestrian Safety

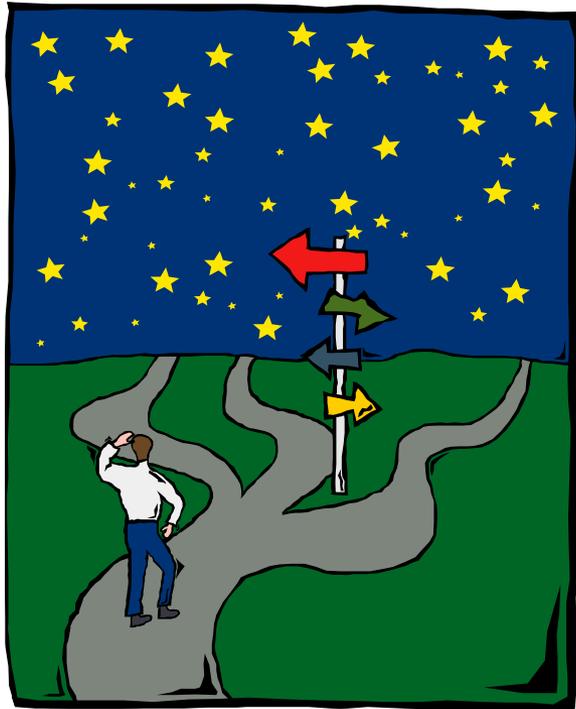

12-3

Let's review the expectations and issues you identified at the beginning of the workshop.

Designing for Pedestrian Safety

12-4

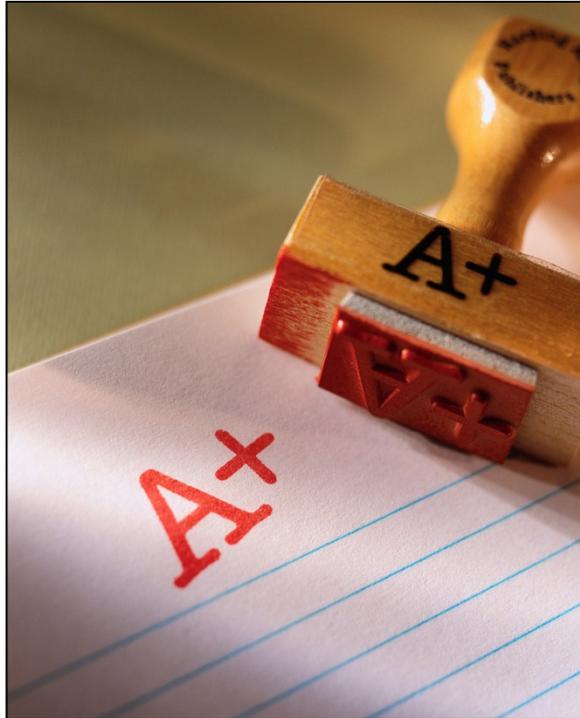

What are YOU going to do differently in the future as a result of this Workshop?

Designing for Pedestrian Safety

12-5
