Bridge Deck Rehabilitation

Springfield, Illinois

Location – Illinois 97/Madison Street at Amos Avenue in Springfield, Illinois

Construction will begin on August 18, 2014 on the rehabilitation of the bridge carrying Madison Street over Jefferson Street at the intersection with Amos Avenue. The repairs include bridge deck patching and a microsilica overlay. During construction a least one lane of traffic will be maintained. Northbound Amos Avenue will not be permitted access to Madison Street via the on ramp during the completion of the project. Amos Avenue traffic will follow a marked detour to navigate the construction.

On August 20 and August 21, Jefferson Street will be closed to traffic at Lincoln Avenue in order to facilitate the required demolition work. The closure will be in effect from 7:00 p.m. to 6:00 a.m. the following morning. Jefferson Street traffic will be maintained using a marked detour for these two nights.

Motorists are urged to slow down and use extreme caution while driving through this construction site and all work zones.
