- Appendix F - Comments and Responses Received as of April 8, 2009

SECTION I - OPEN HOUSE SUMMARY

On Thursday, January 29, 2009, the Illinois Department of Transportation (IDOT) hosted a Public Informational Open House meeting at the United Methodist Church, 200 Lincolnway in Morrison, Illinois from 1:00 p.m. – 7:00 p.m.

The purpose of the meeting was to garner public input on proposed transportation improvements for U.S. 30 from IL 136 east of Fulton to IL 40 in Rock Falls as part of an Environmental Impact Statement (EIS) and Phase I Design Report. Attendees were informed of the study’s environmental and engineering findings. In addition, every participant had the opportunity to comment on the corridors developed by the Community Advisory Group (CAG), as well as, the corridors recommended for further study by the Project Study Group (PSG).

The open house meeting format allowed the public an opportunity to view the information at their leisure and talk one-on-one with IDOT staff and members of the consultant team about their interest and issues related to the project.

Each participant had an opportunity to record their comments or provide comments in writing either at the meeting or by mail to the IDOT District office.

This report summarizes the comments received from the public and corresponding responses pertaining to the U.S. 30 project. In addition, the report highlights the attendance profile, outreach efforts, and information presented at the Public Informational Open House.

SECTION II - ATTENDANCE PROFILES

There were 237 people who attended the open house. Tables 2.1 and 2.10 show the profiles and city representation of those individuals who attended the open house. In addition , Tables 2.2 through 2.9 show the breakdown of the attendees by classification, such as agency partners, elected officials, farmers, homeowners, media, special interest groups, and the chamber of commerce. Data was collected from the sign-in sheet and public comment forms. A copy of the sign-in sheet can be found in **Appendix E**.

Table 2.1: Attendance Profiles - 237 - Total

Agency Partners (7)	Business Community (1)
Elected Officials (6)	Homeowners/Farmland (21)
Media (6)	Homeowners/Residential (178)
Special Interest Groups (3)	Outside of Immediate Area (13)
Chamber of Commerce/ Economic Dev. (2)

Prophetstown	2/237	0.84%
Rock Falls	15/237	6.30%
Springfield	1/237	0.42%
Sterling	6/237	2.50%
Clinton, Iowa	4/237	1.70%
Davenport, Iowa	1/237	0.42%
Did Not State	4/237	1.70%

SECTION III - MEETING ANNOUNCEMENTS AND OUTREACH EFFORTS

The following were outreach efforts utilized to inform the community of the Public Informational Open House:

- 1) Publishing Legal Notices in the local papers including: The Argus, Moline Dispatch, Fulton Journal, Morrison Sentinel, Morrison Post, Prophetstown Echo, Whiteside News Sentinel, Clinton Herald, and the Sauk Valley Newspapers. See **Appendix A** to view the Legal Notices and Press Announcement.
- 2) Mass mailings to approximately 500 stakeholders, including media and elected officials.
- 3) Placing a notice in the U.S. 30 Community Connection Newsletter.
- 4) Placing a notice on the U.S. 30 project website.

All of the notices provided the meeting purpose, date, time, location, and contact information for special need requests.

Elected Official/Media Outreach Efforts

IDOT notified elected officials and media about the open house. Each received a copy of the meeting notice that included IDOT contact information. In addition, media and elected officials received briefing kits at the open house. Each briefing kit contained a copy of the exhibits, handouts, maps and a contact list with the names of staff members to call for comments and/or questions.

SECTION IV - MEETING FORMAT

An open house format was used to present information to the public. There were a total of seven stations staffed with an IDOT representative and/or someone from the consultant team. Each station provided information that was developed to inform the public of the process and project findings.

The Welcome Station was designed to greet all attendees and explain the meeting process. Attendees were instructed to sign-in, given a welcome brochure that explained the purpose of the open house, and a comment form to complete for the project record. See **Appendix B and C** for examples of the documents presented at the Welcome Station.

The next five stations exhibited a map with the 16 corridors developed by the PSG and the CAG, an environmental map that highlighted environmental resources and issues, a map that showed focus areas for alignment studies, as well as, exhibits that explained the project timeline and next steps. The display boards and maps presented at the open house are shown in **Appendix D**.

A seventh station was set up for the public to fill out a comment form to submit their feedback to the PSG. Study team members were available to provide additional information and address any questions. See **Appendix F**.

Highlighted below is the layout of each station in the order information was presented to the public:

Station Layout

- Station #1 - Welcome and Sign-in
- Station #2 - U.S. 30 Environmental Impact Statement 16 CAG Corridors
- Station #3 - U.S. 30 Environmental Impact Statement Focus Corridors
- Station #4 - U.S. 30 Environmental Issues Map
- Station #5 - U.S. 30 Project Timeline
- Station #6 - U.S. 30 Project Next Steps
- Station #7 - Public Comments

SECTION V - COMMENT SUMMARY

After reviewing the exhibit information, attendees were given an opportunity to submit their comments by completing a public comment form or presenting their comments to staff. Attendees were also given the opportunity to correspond via email, postal mail, or by contacting the project hotline (1-866-ROUTE30) within ten days of the Public Informational Open House meeting, January 29, 2009.

In total, 63 comment forms were collected.

The following information was requested on the comment form:

- Respondent Profile. Whether the attendee is a homeowner, business owner, farmland owner, had a special interest, or a combination of any of these categories.
- Potential cultural or community impacts that may be associated with the corridors identified.
- Comments/Issues/Questions regarding the corridors developed by the PSG and the CAG.
- Knowledge and understanding of the corridor evaluation process.
- Interest in being included on the Stakeholder List.
- Respondent's opinions on whether IDOT is coordinating and/or communicating effectively with the public.

Tables 5.1 and 5.2 highlight the manner in which comments were received and the City's representation.

Table 5.1: Record Of Comments Received

MANNER OF COMMENTS RECEIVED	NUMBER
Mail-In Comments from Meeting Attendees	14
Web Email Comments	1
Comment Forms Received at the Public Informational Open House	22
IDOT Comment Forms Collected by Staff	23
Comments from Non-Attendees	3

Table 5.2: City Representation According To The Comment Forms

Morrison	49/63	77.78%
Not Applicable	7/63	11.11%
Sterling	3/63	4.76%
Lyndon	2/63	3.17%
Fulton	1/63	1.59%
Galesburg	1/63	1.59%

SECTION VI - SUMMARY OF RESPONSES

Assigning each response a percentage allowed the study team to gain a better understanding of the needs and interests of the stakeholders. The following tables provide details of the Public Informational Open House attendance profiles, and the breakdown of the six questions on the comment forms.

Stakeholder Profiles

The public comment form was made available to attendees at the meeting. Information solicited with that form included whether the respondent considered themselves a homeowner, business owner, farmland owner, a special interest group or a combination of those types. A summary of the 63 responses by stakeholder types is shown in Table 6.1.

Table 6.1: Stakeholder Types

Homeowner	18/63	28.57%	Homeowner/Business Owner/Farmland Owner/Special Interest	1/63	1.59%
Not Applicable	18/63	28.57%	Homeowner/Farmland Owner/Special Interest	1/63	1.59%
Homeowner/Farmland Owner	14/63	22.23%			
Farmland Owner	4/63	6.35%			
Homeowner/Business Owner	3/63	4.76%			
Homeowner/Farmland Owner/Business Owner	2/63	3.17%			
Special Interest	2/63	3.17%			

SECTION VII - SUMMARY OF QUESTIONS FROM COMMENT FORM

Highlighted in this section are questions asked at the meeting and a summary of the respondent's comments. Copies of the actual comments are provided in **Appendix F**.

Question I: Potential Cultural and Community Impacts

Respondents were asked to identify any potential cultural and community impacts. Listed below are a summary of responses:

- Impacts to farmland and businesses
- Business along the right-of-way could be impacted (gas stations and restaurants)
- Residential communities could be impacted and/or displaced
- Could cause traffic congestion
- Concern about Centennial Farm (a historic landmark)
- Could have an impact to the bike path from Morrison to Rockwood State Park
- Farmers might be impacted because of limited access to the roadway/highway (need access to operate machinery)
- Entrance and exits - Access points to the roadway or local business
- Impact to commuters travel pattern around town
- Major impact to the economic vitality in town

Question II: Community Impacts on the Corridors

Respondents were asked to provide feedback on the corridors presented. Of the 63 responses there were three comments expressed; what will be the impacts to Farmland and the Environment in the area, support for a Southern Corridor, and opposition for a Northern Corridor. Table 7.1 highlights the percentages of the top three comments.

Table 7.1: Summary Of Potential Cultural And Community Impacts

Concern Regarding Farmland/Environmental Concern	22.23%
Prefer South Corridor	12.7%
Northern Corridor Not a Good Option	7.94%

Question III: Corridor Evaluation Process

Respondents were asked if they understood the evaluation process created by the PSG. Table 7.2, Part 1 and Part 2, highlight the outcome of those who stated if they understood the evaluation process and would like to receive information on the process.

Table 7.2: Respondents' Response To Understanding The Corridor Evaluation Process

Question III Part 1: Do you understand the evaluation process?

Yes, understood the evaluation process	22/63	34.92%	Did not answer the Question	7/63	11.11%
No, did not understand the evaluation process	8/63	12.70%	Not Applicable	26/63	41.27%

Question III Part 2: If not, would you like to receive additional information?

Yes, would like to receive additional information on the evaluation process	11/63	17.46%	Did not answer the question	25/63	39.68%
No, is not interested in receiving additional information on the evaluation process	1/63	1.59%	Not applicable	26/63	41.27%

Question IV: Effective Communication By IDOT

Respondents were asked to comment on IDOT’s efforts to effectively communicate with the public. Table 7.3 shows the percentage breakdown of how the attendees view IDOT’s communication efforts. See **Appendix F** for comments/suggestions provided on the comment form.

Table 7.3: Effective Communication

Yes, effective	22/63	34.92%	No, not effective	7/63	11.11%
Did Not Answer	8/63	12.70%	Not Applicable	26/63	41.27%

Question V: Stakeholder Interests

In an effort to keep all stakeholders informed of meeting announcements and project updates, respondents were asked if they desired to be placed on the Stakeholders list. Sixteen of the 63 respondents requested to be added to the stakeholder mailing list. Table 7.4 provides a breakdown of the responses.

Table 7.4: Stakeholder Group Interests

Yes	16/63	25.40%
No	2/63	3.17%
Did not answer	19/63	30.16%
Not Applicable	26/63	41.27%

Meeting hours are from 1:00 p.m. to 7:00 p.m.

Meeting Purpose

To update the Community, in an open meeting format, on the U.S. 30 project's progress to date; providing the project's *Purpose and Need, Environmental Constraints, and Next Steps*; and gathering input from the public on proposed corridors developed by both the U.S. 30 Project Study Group (PSG) and the U.S. 30 Community Advisory Group (CAG) which have been recommended for further screening.

For more information regarding the Public Informational meeting, please call 1-866-Route 30 or (1-866-768-8330)

The facility is handicap accessible. However for special accommodations such as a sign language interpreter or escort, please notify the Illinois Department of Transportation (IDOT) at least 5 days prior to meeting. Address written request for special accommodations to Mr. Jay Howell, Illinois Department of Transportation (IDOT), 819 Depot Avenue, Dixon, IL 61021 or contact Mr. Howell by telephone at (815) 284-2271, (815/284-1667 Transmission for the Deaf).

US 30 Environmental Impact Statement and Phase I Design Report Process

PUBLIC INFORMATIONAL OPEN HOUSE US 30 ENVIRONMENTAL IMPACT STATEMENT AND PHASE I DESIGN REPORT

US 30 from IL 136 east of Fulton to IL 40 in Rock Falls

Thursday, January 29, 2009
1:00 - 7:00 p.m.
United Methodist Church
200 Lincolnway
Morrison, Illinois

WELCOME AND INTRODUCTION

Welcome to the US 30 Public Informational Open House. This is an opportunity for you to express your comments on the proposed transportation improvements for US 30 from IL 136 east of Fulton to IL 40 in Rock Falls.

The goal of this meeting is to update you on the US 30 project progress. Information presented today includes environmental constraints, corridors proposed for further study and the next steps in the study.

PROJECT PURPOSE AND STUDY OBJECTIVES

A US 30 Corridor Feasibility Study was completed in 2006 that evaluated the feasibility of an improved transportation system from just east of Fulton to west of Rock Falls. The Feasibility Study concluded that transportation improvements are necessary to meet the growth and travel demands projected within this area.

As a result of continued project support from the public, special interest groups, federal, state and local leaders, as well as regional chambers of commerce and economic development agencies, federal funds were secured to begin this step – preparation of an Environmental Impact Statement and Phase I Design Report.

The National Environmental Policy Act requires federal agencies to prepare an Environmental Impact Statement (EIS) for all major federal actions which may have a significant impact on the environment. The EIS explores feasible alternatives to a proposed action and the likely environmental consequences of those actions. This phase of the US 30 project includes an in-depth inventory of environmental resources within the project area including human and natural resources. As alternatives are developed to meet the identified transportation needs, potential adverse impacts to those resources and measures to avoid or minimize those impacts will be assessed.

All participants at this meeting are encouraged to provide us with written comments about the project. You may do so by completing a public comment form and either handing it to us today or by **mailing your comments back to us no later than February 13, 2009**. An address is provided on the back side of the public comment form.

PROJECT PROCESS OVERVIEW

We are currently in Phase I of the US 30 project. The process and recommendations developed in this phase will be documented in an Environmental Impact Statement and Design Report. This will include identification of a preferred alignment. The Context Sensitive Solution (CSS) process is being utilized during this phase to elicit public input and thoroughly investigate impacts of proposed transportation system improvements. Completion of Phase I will make it possible for Phase II, Final Design, to be accomplished. Phase II involves the preparation of final plans and other documents that are necessary for the construction of the proposed facility. In order for the design and construction phases of the project to take place, it will first be necessary to secure funding. Currently, funding has not been identified for these latter phases of the project.

PROJECT STATUS

Several major milestones for the US 30 project have been met. These milestones were accomplished through a coordinated effort with the Community Advisory Group (CAG) and the Project Study Group (PSG). These groups first identified problems and key issues associated with the project study area. From the issues that were identified, their next step was to develop the following Problem Statement: ***The problem with US 30 in Whiteside County from Fulton to Rock Falls is increasing traffic volume and congestion which overloads the area-wide traffic system, compromises safety, mobility and reduces the quality of life for adjacent communities. There is a need for improved economic development and accessibility to the region while preserving agriculture and environmentally significant areas.*** After gaining consensus on the Problem Statement by the CAG, the PSG was positioned to move forward with drafting the Purpose and Need Statement. The Purpose and Need Statement is a federally required document that drives the Environmental Impact Statement. It essentially provides the basis for evaluating alternatives and ultimately selection of the preferred alternative. The Purpose and Need Statement has recently been approved by the Federal Highway Administration (FHWA) with concurrence received from State and Federal regulatory and resource agencies. Last but not least, the CAG and the PSG have worked to identify and evaluate potential corridors that will be studied further using environmental and engineering criteria.

To view the approved Purpose and Need Statement along with the project library that contains a variety of documents such as environmental reports and meeting minutes, please visit the project website at www.dot.il.gov/us30/index1.html.

STAKEHOLDER AND PUBLIC INVOLVEMENT

We want to hear from you! There will be numerous opportunities for you to **GET INVOLVED** throughout the entire planning and design process. IDOT has incorporated an intensive community engagement approach through the Context Sensitive Solution (CSS) process. Please contact IDOT or visit the project website to find out the best way for you to get involved.

CONTACTING US

We want to hear your views and concerns. We also want to be sure you have the information you need to know what is being considered with this project. Here is how you can reach us:

- o The project HOTLINE at 1-866-Route 30 (1-866-768-8330)
- o Maps, drawings and other pertinent information about the project are available on the project web site www.dot.il.gov/us30/index1.html or at the District 2 Office located at 819 Depot Avenue, Dixon, Illinois, 61021.
- o Further questions may be addressed to:

Ross Monk	IDOT – Program Development Engineer	815-284-5307
Jay Howell	IDOT – Studies and Plans Engineer	815-284-5351
Rebecca Marruffo	IDOT – Studies and Plans Project Engineer	815-284-5902
Dawn Perkins	IDOT – Studies and Plans Liaison Engineer	815-284-5948
Shelia Hudson	Hudson and Associates	1-866-768-8330

Thank you for your continued interest in this project!

PUBLIC COMMENT FORM

**US Route 30 Environmental Impact Statement
and Phase I Design Report
Public Informational Open House
United Methodist Church,
Thursday, January 29, 2009**

Comment Form

PLEASE PRINT ALL INFORMATION

Name: _____

Address: _____

City: _____ State: _____ Zip Code: _____

Telephone Number: () _____

Email: _____

Check one or more if applicable:

Homeowner Farm Land Owner

Business Owner Special Interest

1. Please list any potential cultural or community impacts you think might be associated with the corridors identified.

2. What are your comments about the corridors? (please refer to them by number)

3. Do you understand the evaluation process? (Circle) Yes No
If not, would you like to receive additional information? (Circle) Yes No

4. Do you feel IDOT is communicating with the public effectively?
(Circle) Yes No If no, please explain and/or provide suggestions:

5. Would you like to be included in the list of Stakeholders? (Circle) Yes No

6. Would you like to be informed of future meetings? (Circle) Yes No
If "Yes", please provide the following information (if different from above):

Name: _____

Address: _____

Telephone No: _____

Email Address: _____

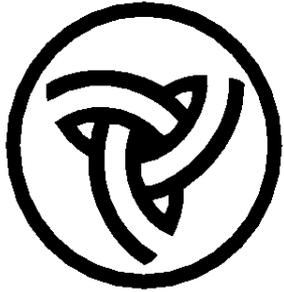

Please return this questionnaire by mail to:

Mr. George Ryan
Deputy Director, Region 2 Engineer
Illinois Department of Transportation
819 Depot Ave.
Dixon, IL 61021-3500

Attn. Ms Dawn Perkins, Project Liaison Engineer

ALL comments **MUST** be received within 10 days of this meeting in order to provide timely consideration.

Your comments are greatly appreciated!

1. Please list any potential cultural or community impacts you think might be associated with the corridors identified.
- YOU MIGHT AS WELL TELL THE SERVICE STATIONS & FAST FOOD BUSINESSES TO CLOSE UP NOW RATHER THAN WAIT UNTIL YOU DESTROY THEM LATER.
2. What are your comments about the corridors? (please refer to them by number)

I AM 100% AGAINST THIS WHOLE BYPASS PROJECT. ALL THE WASTED FARM LAND THAT CAN NEVER BE REPLACED JUST TO SATISFY THE WANTS AND NEEDS OF A FEW INDIVIDUALS AND SOME LARGE CORPORATIONS (ADM) & (WALMART).

3. Do you understand the evaluation process? (Circle) Yes No
If not, would you like to receive additional information? (Circle) Yes No

4. Do you feel IDOT is communicating with the public effectively? (Circle) Yes No
If no, please explain and/or provide suggestions:

I WOULD RATHER HERE YOU ARE STOPPING ANY FURTHER PROCESS OF GOING FORWARD WITH THIS BYPASS.

5. Would you like to be included in the list of Stakeholders? (Circle) Yes No

6. Would you like to be informed of future meetings? (Circle) Yes No

Your comments are greatly appreciated!

WALMART IS THE WORSE THING TO HAPPEN TO THE PEOPLE OF THE US THEY HAVE SHIPPED MORE JOBS OVERSEAS AND PUT MORE COMPANIES OUT OF BUSINESS THAN ANY OTHER COMPANY. AND NOW I SHOULD BE EXPECTED TO SUPPORT WITH MY TAX DOLLARS THIS BYPASS! I SAY NO!!!

2002

1/29/08

14494 VESTER RD.
MIKE VESTER MORRISON, IL.
LANDOWNER 815-772-4907
BUSINESS OWNER

I FEEL THIS PROJECT IS THE
BIGGEST WASTE OF GOOD
FARMLAND, STATE & FEDERAL
TAX DOLLARS. THE WANTS OF
A FEW PEOPLE AND COMPANIES
SHOULD NOT HAVE THE POWER
TO DESTROY FARMLAND THAT
CAN NEVER BE REPLACED.

ADM & LOCAL MARKET CAN JUST
CONTINUE TO USE THE EXISTING
ROUTE 20. I AM 100%
AGAINST THIS GOING FORWARD AND
WILL CONTINUE TO HAVE
DISCUSSIONS WITH LAWYERS TO
BEGIN BUILDING A FORCE OF
OTHER LOCALS AGAINST THIS!

MP Vester

1. Please list any potential cultural or community impacts you think might be associated with the corridors identified.

Morrison is so congested with traffic tied up through the stop lights it is a real pain.

2. What are your comments about the corridors? (please refer to them by number)

We who live here know we need a corridor around the south side of town, near the industrial park.

3. Do you understand the evaluation process? (Circle) Yes No
If not, would you like to receive additional information? (Circle) Yes No

1. Please list any potential cultural or community impacts you think might be associated with the corridors identified.

Why does a vocal minority have so much clout, most of the people in this area do not want this road.

2. What are your comments about the corridors? (please refer to them by number)

I feel as much as possible existing Rt. 30 corridor should be used, this would have minimal impact on homeowners & property owners in the area.

3. Do you understand the evaluation process? (Circle) Yes No

1. Please list any potential cultural or community impacts you think might be associated with the corridors identified.

Very disastrous for downtown Morrison business owners AND for those on the East and West side!

We are too close to Rock Falls/Sterling and Clinton, Iowa, for people to "see" us from the bypass and stop.

2. What are your comments about the corridors? (please refer to them by number)

Too much farmland being paved.
Too much rain water having to soak in somewhere else.

Too much money for more roads and their continued upkeep!
Make better use of what we already have. Rt. 30 and where they exist. 88

3. Do you understand the evaluation process? (Circle) Yes No

Your comments are greatly appreciated!

Look at Freeport, IL and Commanche, Iowa and ask their downtowns what the bypass did for them.

1. Please list any potential cultural or community impacts you think might be associated with the corridors identified.

2. What are your comments about the corridors? (please refer to them by number)

2, E - most efficient - uses less
Farm land - shortest route -
less railroad crossings - use's
most of Route 30 - less cost -
Fewer residences in the path

3. Do you understand the evaluation process? (Circle) Yes No
If not, would you like to receive additional information? (Circle) Yes No

1. Please list any potential cultural or community impacts you think might be associated with the corridors identified.

We were unable to get a map because there was none left. (reference) attended the meeting. So please send them to us.

2. What are your comments about the corridors? (please refer to them by number)

I don't have the #'s so very hard to list comments by corridor #'s. Very concerned about using prime farm land - should make use of ~~existing~~ existing roads - the roads we have need to be repaired before making ahead with new roads. I think Morrison will no longer exist for the businesses there if it is bypassed. I don't think it needs to be.

the highway with tractors and other machinery

1. Please list any potential cultural or community impacts you think might be associated with the corridors identified.
farmers affected by crossing MAIN highways OR in some cases needing to use MAIN roads for/w/with machinery (we are retired farmers)
2. What are your comments about the corridors? (please refer to them by number)
Presently, my home and land is not directly affected by future Present plans except travel north to RT.30. I live about 2 miles south of 30 and just close to I88, divided lanes.

3. Do you understand the evaluation process? (Circle) Yes No
If not, would you like to receive additional information? (Circle) Yes No

2. What are your comments about the corridors? (please refer to them by number)

3.

4.

5.

6.

Please

I think that by taking either a North or South corridor AROUND Morrison will impact the sales tax for Morrison. A North or South corridor will take away a lot of fuel tax from trucks and cars that would normally travel through Morrison.

A North or South corridor AROUND Morrison will take too much farmland out of production.

A North corridor will make it more difficult to get to Rockwood State Park for people in Morrison.

I would like a corridor using existing U. S. Route 30 that would not be four lanes, except at rural intersections. (Eastbound, Westbound, Center Left Turn, Off Lane for Right Hand Turns)

In Morrison, take out the stop light at U. S. Route 30 and Genesee Street and have no left turns there; and make Route 30 three lanes (center turn lane) on the West end of Morrison (from the curve to just past Garden Plain Road).

We do not need a truck route just for the Industrial Park. We have Interstate 88.

If it WOULD NOT solve the problem
Waste of money

2. What are your comments about the corridors? (please refer to them by number)
Neither one is acceptable
Look at the future AS TRUCK
traffic WILL continue INCREASE
We already have Interstate
88 south edge of Morrison AT
Rt 78. Four lane highway street
ACROSS AND come out of Clinton
Iowa, between Clinton and
Iowa at west edge of city limits

3. Do you understand the evaluation process? (Circle) Yes No
If not, would you like to receive additional information? (Circle) Yes No

1. Please list any potential cultural or community impacts you think might be associated with the corridors identified.

My concern for the most likely southern bypass is its closeness to town and many homes, subdivisions, golf courses. It doesn't seem practical to displace lots of new homes & golf course land.

2. What are your comments about the corridors? (please refer to them by number)

I believe it should be a little farther away from town. No one wants to give up their land, but farmland is much more economical than residences, not mentioning the social and psychological impact to these peoples lives. I question the need; I'm not sure of it in my mind.

1. Please
might

2. What
number

Dear sirs,

This whole 4-lane thing from the river to I-88 was initiated by Iowa. Still think that took guts when you consider what a bottleneck Clinton is, not to mention dangerous. Another consideration might be that neither Clinton bridge is 4-lane.

To my mind a more common sense approach would be to come off of 88 at approximately the 18 mile marker, cross the river with a 4-lane bridge close to the Whiteside/ Rock Island line, and rejoin 30 west of Clinton. You then give motorist and truckers a way to bypass Clinton and Morrison. I don't think the mileage is all that different from any of the proposed routes.

See what Iowa thinks of that.

Thank you,
Brian Bonneur

1. Please list any potential cultural or community impacts you think might be associated with the corridors identified.

2 bldgs. on Rt. # in Morrison on South Side would be able to relocate (Sportsman's Bldg and old Smith Bank)

2. What are your comments about the corridors? (please refer to them by number)

I suggest you make the front Route # 30 into 4 lanes until you come to West end of US 50 Bldg. on Liberty Ave. Then going through town (using South Side) to 3 lane (one or turning lane) to Casey's Gas Station (East end of town). This is only 2 1/2 - 3 miles. The 4 lanes could be picked up again from Casey's on East to 1-88 Connector intersection.

1. Please list any potential cultural or community impacts you think might be associated with the corridors identified.

Loss of prime farmland
Loss of income to me and neighbors.
Loss of business in Morrison, Haddae's + Casoy's
gas stations

2. What are your comments about the corridors? (please refer to them by number)

IL. I lose approx. 50,000 acres a year
to urban sprawl. The impact on farm
ground is very important, loss of ground
must be held to a minimum.

3. Do you understand the evaluation process? (Circle) Yes No
If not, would you like to receive additional information? (Circle) Yes No

4. Do you feel IDOT is communicating with the public effectively? (Circle) Yes No

1. Please list any potential cultural or community impacts you think might be associated with the corridors identified.

This town will die just like Lyndon did - too much good farm ground would be taken and affect all businesses.

2. What are your comments about the corridors? (please refer to them by number)

They are not needed - just fix the roads we have and quit listening to people that do not have ground or businesses involved. The traffic is not a problem thru Morrison at all. Even with 3 traffic lights it still moves along with no backup for any length of time. The State cannot even fix the roads we have so don't waste money on another fix by night whim of a few stupid people.

3. Do you understand the evaluation process? (Circle) Yes No
If not, would you like to receive additional information? (Circle) Yes No

4. Do you feel IDOT is communicating with the public effectively? (Circle) Yes No
If no, please explain and/or provide suggestions:

They are not listening to anything from homeowners, farmers - business owners that are directly involved. There is no congestion of traffic thru Morrison - only listen to those

5. Would you like to be included in the list of Stakeholders? (Circle) Yes No

The north route isn't very
good for my family. if

✓
Have studies been done
or are they being done on
impact of toxins that
have been by passed

Second, is there any
consideration about reroute
pt. 78 around, I know
that 78 would be another
study But if the Southern
route is taken it would
be a thought to reroute
78 to West side of Town

These Meetings are perfect,

I will be attending through
to the end. My home is
on the 4-A route so I am
very concerned. I do appreciate
the format of these meetings.

General
Comment

Horseman

not
Applicable

I Think you should
talking + listening to
✓ the land owners that
this project will effect.

✓ Farmers that will be put
out of Business.

Instead of the coalition
that is pushing it to
benefit the Walmar's +
ADM Industries.

The farm ground taken
out of production by this
project will feed or fuel
many people

RON SLANK

1. Please list any potential cultural or community impacts you think might be associated with the corridors identified.

THE NORTH ROUTE AROUND MORRISON
WOULD BE DEVASTATING

2. What are your comments about the corridors? (please refer to them by number)

CORRIDOR NORTH OF MORRISON SHOULD BE
VERY BAD FOR MORRISON COMMUNITY
FOR # OF REASONS:

- 1) CUT OFF FUTURE GROWTH - RESIDENTIAL
- 2) CUT OFF FROM ROCKWOOD PARK
- 3) INDUSTRIAL/RETAIL GROWTH
AREA IS TO THE SOUTH
- 4) IMPACT HISTORIC ORIGINAL SETTLEMENT
OF MORRISON. REMNANTS OF
STAGE COACH GROVE REMAIN.

3. Do you understand the evaluation process? (Circle) Yes No
If not, would you like to receive additional information? (Circle) Yes No

4. Do you feel IDOT is communicating with the public effectively?

MY CONCERNS IF BI-PASS
IS BUILT:

BUSINESS & COMMERCE
IN DOWNTOWN MORRISON
WILL DIE. THERE HAS
BEEN A DECLINE OVER
THE YEARS - THIS WILL
CAUSE ANY LOCAL PEOPLE
OR DRIVE-THRU'S TO SHOP/
USE BUSINESS ELSEWHERE.

• WHAT ABOUT THE
HISTORIC SIGNIFICANCE
OF 100+ BUILDINGS
LEFT IN THE DUST? NEW
AND MODERN ISN'T ALWAYS
THE BEST.

• WHAT ABOUT THE
ENVIRONMENTAL IMPACT??
THERE ARE MANY
NATURAL AREAS BEING

done

(2)

TAKEN CARE OF. HOW WILL
A) BUILDING + CONSTRUCTION,
B) MOVING + DISTURBING
SOIL & NATURAL

HABITATS IMPACT THE
TOTAL NATURAL / FARM
AREAS ?

• WHAT ABOUT AIR POLLUTION
HOW MUCH MORE WILL
POLLUTION BE ?

• WHAT ABOUT NOISE
POLLUTION ?

IS THERE, IN THE PRO-
POSAL, PLANS FOR IN-
CREASING TREE
POPULATION AS PART
OF LANDSCAPING &
AIR QUALITY IMPROV-
EMENT ?

done

3

I DON'T WANT MORRISON
TO BE KNOWN FOR
THE BIGGEST &
BEST TRUCK STOP
EXIT.

THANKS,
MARIANNE BIAGI

earthlink.net

✓ done

4

ADDENDUM - M. BIAGI

• MORRISON HAS APPROVED
A GREENWAY FROM
TOWN TO THE ST. PARK.
I PERSONALLY HAVE WALKED
THE ROAD TO THE PARK
FOR EXERCISE - WE NEED
A PATH OR TRAIL. IT'S
VERY DIFFICULT TO
WALK - ROAD IS NARROW
& DRIVERS DON'T "WATCH"
FOR PEDESTRIANS.
THE PARK COULD
BE A CASH BENEFIT
FOR MORRISON THROUGH
INCREASED USAGE
OF THE PARK FOR
HIKERS, BICYCLES, ETC.

MARIANNE BIAGI
DON'T TAKE OUR GREEN-
WAYS!!!

1. Please list any potential cultural or community impacts you think might be associated with the corridors identified.

THE FARTHER AWAY FROM MORRISON, THE MORE NEGATIVE IMPACT IT WILL HAVE. KEEP AS CLOSE TO MORRISON AS IS PRACTICAL.

2. What are your comments about the corridors? (please refer to them by number)

NUMBERS 1A AND 1B ARE THE MOST DESIRABLE. JUST SKIRT AROUND TOWN, AND USE PRESENT RT 30 HWY AS ONE OF THE DOUBLE LANES TO REDUCE COST. - ON ANY PLAN; A BIKE TRAIL SHOULD BE INCLUDED FOR CONNECTING TO THE BIKE TRAILS IN FULTON & ROCK FALLS. THE "FRIENDS OF THE PARKS" ORGANIZATION IN MORRISON HAS APPLIED FOR A GRANT TO MAKE A DEDICATED BIKE PATH FROM MORRISON TO ROCK WOOD STATE PARK. THE NEW RTE 30 CORRIDOR SHOULD HAVE A BIKE PATH WHICH CONNECTS TO THE MOOR-ROCK WOOD PATH.

1. Please list any potential cultural or community impacts you think might be associated with the corridors identified

RP 3A would be impacted dramatically in my opinion due to the natural environment (animals, plant life, park area)

2. What are your comments about the corridors? (please refer to them by number)

As a homeowner and a female with children, I prefer to Southern Route # 3B around Momson. If route #3A (North) is selected, I feel it would have a dramatic effect on the natural wildlife in the area we live in. We moved to Narrish Rd recently so that we could enjoy the peacefulness, nature and a quiet place out of town to raise our children as well.

1. Please list any potential cultural or community impacts you think might be associated with the corridors identified.

✓ 2. What are your comments about the corridors? (please refer to them by number)

Corridor section 2-E should not be considered. Too many residences and it goes directly thru a wooded area.

3. Do you understand the evaluation process? (Circle) Yes No
If not, would you like to receive additional information? (Circle) Yes No

4. Do you feel IDOT is communicating with the public effectively?
(Circle) Yes No If no, please explain and/or provide suggestions:

5. Would you like to be included in the list of Stakeholders? (Circle) Yes No

6. Would you like to be informed of future meetings? (Circle) Yes No
If "Yes", please provide the following information (if different from above):

Name: yes - we're already being

Address: informed

Telephone No: _____

Email Address: _____

Please return this questionnaire by mail to:

Attn: Dawn Perkins

Dear Dawn:

On January 29, 2009, we met and conversed with you at the Public Informational Open House, held at the United Methodist Church, Morrison IL. At that time, we were told that we could request a more enlarged and detailed map of the proposed Rt. 30 corridor (2-E) directly north of Morrison. We especially want a closer view of the area involving Norrish Road. We would appreciate receipt of such a map.

Thanking you in advance,

Hearold & Shirley

1. Please list any potential cultural or community impacts you think might be associated with the corridors identified.

My concern is that where is the money? Due to the former Gov. we owe so much money and should this wait a few more years until

2. What are your comments about the corridors? (please refer to them by number)

Illinois gets economically sound

3. Do you understand the evaluation process? (Circle) Yes No
If not, would you like to receive additional information? (Circle) Yes No

4. Do you feel IDOT is communicating with the public effectively? (Circle) Yes No
If no, please explain and/or provide suggestions:
Except for the problem of localizing property - as very few roads are named - please add that - as many people were mentioning this

5. Would you like to be included in the list of Stakeholders? (Circle) Yes No

6. Would you like to be informed of future meetings? (Circle) Yes No
If "Yes", please provide the following information (if different from above):

Question:

I was unable to make it to the meeting in Morrison last week. Is there anyway you can email me the proposed routes or mail me a copy?

Thanks

1. Please list any potential cultural or community impacts you think might be associated with the corridors identified.
A north route will cause extra noise in Rockwood Park. Traffic from town can be heard there at times now.

✓ 2. What are your comments about the corridors? (please refer to them by number)
A South Route would save building Bridges over Rail Road Tracks

3. Do you understand the evaluation process? (Circle) Yes No
If not, would you like to receive additional information? (Circle) Yes No

4. Do you feel IDOT is communicating with the public effectively? (Circle) Yes No
If no, please explain and/or provide suggestions:
