**ILLINOIS DEPARTMENT OF TRANSPORTATION
POSITION DESCRIPTION**

DATE:	September 15, 2015	POSITION:	Civil Engineer Trainee
APPROVED BY:		OFFICE/DIVISION:	Highways/R 3 D 5/Project Implementation/Construction
CODE:	PW110-23-55-201-10-01	REPORTS TO:	Resident Engineer

Position Purpose

This position is accountable for providing assistance to the Resident Engineer/Technician in performing the layout, inspection and documentation required on various highway improvement construction projects. This is a training position.

Dimensions

Dollar Value of Construction Projects: \$100,000 to \$2,000,000

Nature and Scope

This position reports to the Resident Engineer/Technician.

This position, under the direction of the Resident Engineer/Technician, provides the contractor with the necessary layout and inspection required on highway improvement construction projects. This position operates within an environment of ensuring that the contractor provides a quality improvement in accordance with plans, specifications and special provisions in a timely manner.

Typical problems faced by the incumbent are in the interpretation of the plans and specifications while inspecting and directing the contractor's personnel in compliance with the specifications. The greatest challenge is to balance the application of civil engineering principles to field conditions.

The functions performed by the incumbent include acting as an instrument man on the survey party, inspecting construction operations such as earthwork, drainage, asphalt or concrete pavements, concrete, steel and other miscellaneous items involved in road and bridge construction; providing the necessary reports and documentation for pay items; reducing survey notes, plotting cross sections, computing quantities, checking computations of others and assisting the Resident Engineer/Technician on specific construction problems. The incumbent is responsible for total compliance with the provisions of the Departmental Safety Code and for cooperating with every aspect of the Department's Employee Safety Program so that operations can be done in a manner which ensures the safety to himself/herself, fellow workers, and the public.

The incumbent is governed by the specifications of the project. She/he refers major problems or necessary plan changes to the Resident Engineer/Technician. She/he does, however, accept or reject materials incorporated in the project on the basis of visual or field tests, and assures that all materials have been properly inspected prior to being incorporated into the project.

The incumbent has contacts with resident engineers/technicians, project engineers and personnel from the District Bureau of Materials, as well as with contractors and the general public.

The effectiveness of this position will be measured by the timeliness and accuracy of layout, inspection and reports provided by the incumbent.

Principal Accountabilities

1. Provides accurate measurement, computation and documentation of contract items.
2. Keeps the Resident Engineer/Technician informed of any construction problems encountered or changes made.
3. Ensures that the times inspected are in accordance with the specifications.
4. Provides accurate and timely layouts.
5. Performs duties in compliance with departmental safety rules. Performs all duties in a manner conducive to the fair and equitable treatment of all employees.
6. Performs other duties as assigned.
