## **Intersection Improvement Project at Dundee Road and McHenry Road/Wheeling Road**

**CHICAGO** – The Illinois Department of Transportation (IDOT) announced that daily lane closures will take place at the intersection of Dundee Road (Illinois 68) and McHenry Road/Wheeling Road, in Wheeling, beginning, weather permitting, Monday, August 22. The closures are necessary for an intersection improvement project.

In order to complete the work, temporary lane closures will take place at Dundee Road and McHenry Road/Wheeling Road during daytime hours.

The scope of the project consists of adding turn lanes on westbound Dundee Road and southbound McHenry Road. The project also will include resurfacing and improvements to the sidewalk, traffic signals and drainage at the intersection.

The overall project is expected to be completed in Fall 2016.

Motorists can expect delays and should allow extra time for trips through this area. Drivers are urged to pay close attention to flaggers and signs in the work zones, obey the posted speed limits and be on the alert for workers and equipment.
