Lane Reductions on Illinois 176 at Brown Street for Intersection Improvement

CHICAGO – The Illinois Department of Transportation (IDOT) announced that daily lane reductions will take place on Liberty Street (Illinois 176) at Brown Street, in Wauconda, for intersection improvement, beginning, weather permitting, Monday, April 11.

In order to complete the work, Illinois 176 will be reduced to a single lane operation while work is in progress. Flaggers will direct traffic to pass in alternating directions.

The scope of the project includes roadway resurfacing and traffic signal installation to improve safety at the intersection. It is expected to be completed in Summer 2016.

Motorists can expect delays and should allow extra time for trips through this area. Drivers are urged to pay close attention to flaggers and signs in the work zones, obey the posted speed limits and be on the alert for workers and equipment.
