Lawrence Avenue improvement project resumes April 12

CHICAGO – The Illinois Department of Transportation announced today that improvements to Lawrence Avenue from Mannheim Road (U.S. 12/45) to Rose Street, in Schiller Park, resumes, weather permitting, Monday, April 12.

To complete the project, Lawrence Avenue from Rose Street to 25th Avenue will be reduced to one lane in each direction, with lane widths reduced to 9.6 feet. Access to businesses within the work zone will be maintained during construction.

The project, which includes patching and resurfacing, constructing new ADA-compliant sidewalk ramps, replacing deteriorated curbs, along with installing new storm sewers and improving drainage, is expected to be completed in late July.

Motorists can expect delays and should allow extra time for trips through this area. Drivers are urged to pay close attention to flaggers and signs in the work zones, obey the posted speed limits and be on the alert for workers and equipment.

Over the next six years, IDOT is planning to improve more than 3,300 miles of highway and 8.4 million square feet of bridge deck as part of the Rebuild Illinois capital program, which is investing \$33.2 billion into all modes of transportation. Year One included approximately \$2.7 billion of improvements statewide on 1,706 miles of highway, 128 bridges and 228 additional safety improvements.
