Illinois 58 and Shady Oaks Drive intersection improvements

CHICAGO – The Illinois Department of Transportation announced today that improvements to the intersection of Illinois 58 and Shady Oaks Drive, in Elgin, will require daytime lane closures with flaggers beginning, weather permitting, the week of March 22.

The project, which involves converting the existing two-way stop to a signalized intersection with ADA-compliant sidewalk ramps, is expected to be completed in late October.

Motorists can expect delays and should allow extra time for trips through this area. Drivers are urged to pay close attention to flaggers and signs in the work zones, obey the posted speed limits and be on the alert for workers and equipment.

Over the next six years, IDOT is planning to improve more than 3,300 miles of highway and 8.4 million square feet of bridge deck as part of the Rebuild Illinois capital program, which is investing \$33.2 billion into all modes of transportation. Year One included approximately \$2.7 billion of improvements statewide on 1,706 miles of highway, 128 bridges and 228 additional safety improvements.
