Temporary signal outage set March 30 in Pekin

PEKIN – The Illinois Department of Transportation announced that the traffic signals at Second Street and Ann Eliza Street (westbound Illinois 9) and at Second and Margaret streets (southbound Illinois 29 and eastbound Illinois 9) in Pekin are scheduled for a temporary outage on March 30.

The outage is necessary to relocate the signal control cabinet. The intersections will be controlled by temporary four-way stop signs during the work.

Motorists can expect delays and should allow extra time for trips through this area. To avoid the work area, when feasible, use of alternate routes should be considered. Drivers are urged to pay close attention to changed conditions and signs in the work zones, obey the posted speed limits, refrain from using mobile devices and be alert for workers and equipment.

Over the next six years, IDOT is planning to improve more than 3,300 miles of highway and 8.4 million square feet of bridge deck as part of the Rebuild Illinois capital program, which is investing \$33.2 billion into all modes of transportation. Year One included approximately \$2.7 billion of improvements statewide on 1,706 miles of highway, 128 bridges and 228 additional safety improvements.
