## **Illinois 22, Old Barrington Road Improvements Start Next week in North Barrington**

**CHICAGO** – The Illinois Department of Transportation (IDOT) announced that lanes on either side of the intersection of Illinois 22 and Old Barrington Road, in North Barrington, will be reduced and may include daily lane closures, beginning, weather permitting, Monday, Nov. 2.

The reductions and lane closures initially will be required to build temporary pavement on the east and west sides of Old Barrington Road to accommodate the future construction of a new left turn lane on Illinois 22.

Once that work is complete, construction will continue, weather permitting, in late November on the north and south sides of Illinois 22, with the speed limit reduced to 40 mph through the work zone.

Once completed, the intersection will also include new traffic signals. The project will be complete by July 2016.

Motorists can expect delays and should allow extra time for trips through this area. Drivers are urged to pay close attention to flaggers and signs in the work zones, obey the posted speed limits and be on the alert for workers and equipment.
