

RELOCATED VANDEBROOK DRIVE

Preferred Alignment:

Relocate existing Vandebrook Drive, northerly, to become the fourth leg of the South Market Street intersection.

Relocated Vandebrook Drive Advantages:

- Removes the traffic conflicts at the existing IL Route 3 and Vandebrook Drive intersection
- Utilizes an existing traffic signal on Illinois Route 3
- Saves the cost of implementing the 4-lane improvement between South Market and existing Vandebrook Drive
- Allows for future cross streets to tie into Vandebrook Drive

Timeline for Vandebrook Drive Improvement
