Pavements

- Spreadsheet is based on the 2019 HPMS submittal data.
    - 1/10-mile NHS sections, State, Local Agency or Toll Jurisdiction.
    - Also includes CRS, State of Acceptable Condition category

Spreadsheet fields

Column	Description
B	Inventory Number
C – D	Begin & End Station
E – L	Descriptions of Pavement Segment
M	Municipality Name (0000 = rural)
N	Township Name
O	County Name
P	MPO Name (0000 = rural)
Q	JurType – what type of agency has jurisdictional responsibility of pavement (State, Local Agency, or Toll Authority)
R	Jurisdiction – Jur_Desc code
S	Jur_Desc – Description of Jurisdiction (IDOT, County, Municipality, etc.)

T	JurName – which agency has jurisdictional responsibility of the pavement:
	    If Jur_Desc = IDOT, then JurName = (blank)
	    If Jur_Desc = Toll, then JurName = Toll, which is ISTHA.
	    If Jur_Desc = County, then JurName = County Name.
	    If Jur_Desc = Muni and Toll is not equal to No, then JurName = Skyway
	    If Jur_Desc = Muni and Toll is equal to No, then JurName = Municipality Name

U	Maintenance – This field represents who has maintenance responsibility of the pavement.
V	TollFacilityType– This item identifies the operating authority having jurisdiction of a toll facility.
W	CRS – IDOT Performance Measure
X	State of Acceptable Condition (SoAC) Description
Y	TenthOfaMileIRI – used in all performance measure calculations
Z	TenthOfaMileRutting – used in performance measure calculations for asphalt-surfaced pavements
AA	TenthOfaMileFaulting – used in performance measure calculations for jointed concrete pavements
AB	TenthOfaMileCrackingPercent – used in all performance measure calculations
AC	TenthOfaMilePavementType – pavement type used to determine which performance data applies
AD	TenthOfaMileConst – indicates pavement was under construction during data collection If TRUE, then Columns AF – AJ indicate "missing"
AE	TenthOfaMileCollDate – date the data was collected
AF	PM2IRIRating – IRI condition rating based on federal performance measures
AG	PM2RutRating – Rutting condition rating based on federal performance measures

Column	Description
AH	PM2FaultRating – Faulting condition rating based on federal performance measures
AI	PM2CrackPctRating – Cracking condition rating based on federal performance measures
AJ	PM2 Overall Rating – Determined from IRI, rutting, faulting, and cracking condition ratings
AK	Begin Reference – Reference point at beginning of segment
AL	End Reference – Reference point at beginning of segment

To filter to the NHS pavements in a specific agency, first select the jurisdiction description (Column S) that matches the agency filtering for, then select the jurisdiction name (Column T) that matches the name of the agency filtering for. If the pavements in a specific MPO are desired, select the MPO from Column P.
